## ACRYLIC LEATHER PAINT

Angelus Acrylic Leather Paint is the world leader in custom leather colourings. It utilises a flexible, self-levelling, non-cracking formula that adheres to multiple surfaces such as leather, vinyl, patent leather, canvas, denim, fabrics, wood, glass and more, when prepared properly.

Available in a variety of standard colours, as well as neons and metallics. Ideal for painting sneakers, boots, jackets, athletic shoes, purses, furniture and more!

When properly applied, Angelus Leather Paint will not crack, peel, fade, or rub off.

CLEANERS

FOAM-TEX(170ml)

The newest and easiest way to clean sneakers! FOAM-TEX is a gentle foaming cleaner that uses a pump handle to dispense foam directly onto sneakers. No more bowls, no more water. Clean your kicks with EASE.

LPA842-05-000

EASY CLEANER (255ml)

A premium shoe cleaner that's safe for all materials from leather and canvas to GORE-TEX and plastic. Versatile and strong enough to clean soles and sidewalls, yet gentle enough to clean suede and nubuck.

LPA840-08-000

BLUE FOAM CLEANER (236ml)

This economical all-in-one cleaner safely removes most stains, including surface dirt, grease, perspiration & cosmetics.

Works on a variety of surfaces including suede, leather, nu-buck, linen, mesh, satin, straw, canvas, nylon & vinyl.

LPA815-008

EASY CLEANER KIT

1 x 255ml Easy Cleaner.  
1 x branded Cleaning Brush.  
(An unstoppable combo)

1 x Microfiber Towel (great for residue-free wiping of dirt & suds).

LPA840-08

LEATHER DYES

The most heavily pigmented dye on the market. A permanent liquid dye designed for use on smooth leather, guaranteed to penetrate and form a lasting colour that won't peel, crack or fade. Can be used on any leather items, as well as on gourds, stone, and even wood. Once applied it may be difficult or impossible to remove. Remember to prep with Preparer before use!

# COPIC

A trademark of Too Corporation, Japan. **.Too**

## ARTIST'S ALCOHOL INK MARKERS

the marker of choice for professionals worldwide

**358**  
 NIBS REFILL COLOURS

### SKETCH

Sketch markers are commonly used for comics, storyboard illustration, fashion design, interior design, manga, anime, landscape architecture, rubber-stamping, mixed media arts, tattoo arts, calligraphy & more!

**214**  
 NIBS REFILL COLOURS

### CLASSIC

The Classic marker is the original high quality illustrating tool. Most popular among Architects, Product Designers, Graphic Designers, Industrial Designers, Calligraphers, Quilters, Scrap bookers, and for journaling and mixed media arts.

### BEST SELLER

**180**  
 NIBS REFILL COLOURS

### CIAO

The Ciao marker (pronounced "chow") is the most economical Copic marker, providing the same ink & nibs as Sketch, but at a more attractive price. The Medium Broad nib allows for thick strokes while the Super Brush nib works great for variable-width strokes and blending.

### WIDE

G04012M

Copic Wide markers are the premier choice for colouring large areas with a consistent stroke. Their large nibs are excellent for calligraphy, architectural design, graffiti, product rendering and colouring backgrounds. They feature two replaceable nib options and are easy to refill. These markers are empty (to be filled with Copic Ink).

## COPIC INK

12.6ml PIPETTE (358 colours available)

Copic Ink is water-free, quick-drying and can be used in a variety of alcohol ink applications aside from their main use as Copic Marker refills. This includes dripping onto Yupo paper, candle making, fabric colouring, etc.

The new Copic Ink 2.0 design enables quick & clean refills with precision and control.

# COPIC acrea

acrylic paint markers designed for a flawless creative touch

**Opaque**

Any color covers any color

**Water Based**

Non-toxic and odorless

**Versatile**

Create on any surface

We are excited to introduce Copic acrea, a brand new water-based paint marker designed to elevate your creative expressions with complete freedom.

Fully opaque on a variety of materials such as paper, glass, iron, plastic, and fabric with flat and streak-free results. They also work perfectly on artworks created with our alcohol-based markers, so you can easily add highlights and finishing details. The sleek matte design allows for an easy grip while the fine 0.8mm nib is optimized for intricate detailing and delivers a smooth ink flow for a seamless drawing or writing experience.

## COPIC ARTIST'S PENS

**DRAWING PEN**

G04012P

A special black pen that gives you the feel of a classic fountain pen in a convenient format. It can draw lines of varying thickness by changing writing pressure. The pen has a stainless steel tip ideal for inking and drawing. Its pigment-based ink is water- and alcohol-resistant, and ideal to use with Copic markers. The ink will not blur or fade and its flow is consistent, making it ideal for all types of sketching, illustration & writing.

**GASENFUDE BRUSH PEN**

G04012N

The Copic Gasenfude brush pen has a fine synthetic brush nib (or "fude") which creates expressive line variations for lettering or sketching. Water-based, acid-free pigment ink will not bleed if used with Copic markers - its rich and solid black ink provides amazing shading effects in sketches, mangas and caricatures.

## COPIC STORAGE WALLETS

# Rit FABRIC DYES

Breathe new life into an old t-shirt, sneakers, or a plain set of curtains. Here's everything you need to confidently embark on your dyeing adventures.

## ALL-PURPOSE LIQUID DYE 236ml

A tried and true classic that's been dyeing your goods new and old for over 100 years. Rit All-Purpose Dye is here to add a bit of dazzle to natural fabrics like cotton, wool, and silk, as well as synthetics like nylon and rayon. A simple, non-toxic way to bring the colour of your choice to garments, household items, and more.

## DyeMore for Synthetics 207ml

With so many diverse synthetic fabric iterations on the market, we thought it was high time to offer a dye capable of taking those very fabrics to the next level. That's why we're proud to introduce Rit DyeMore, a dye specially made for synthetic fabrics like polyester, acrylic, acetate, plus blends that contain those fibers. And like our original formula, DyeMore is non-toxic and perfect for use in the home.

## ColorStay DYE FIXATIVE 236ml

N088720

We want your dye projects to stand the test of time. That's what ColorStay Dye Fixative is for. An easy-to-use solution designed to lock in colour, keeping your fabrics looking their best and brightest for the long run. It reduces bleeding, fading and even enhances the colour of your project. Use after dyeing to lock in colour. Or use it immediately after a tie-dye or dip-dye project to prevent dye from bleeding into white areas. It is even effective on commercially dyed fabrics. Whatever your purpose, ColorStay Dye Fixative assures you will get lasting colour for the long run.

## COLOUR REMOVER 56.7g

N083600

Our Color Remover makes it possible to remove the existing colour from yet-to-be dyed fabric, giving you a dye-ready canvas for spectacular results and true colour. It's also the perfect solution for removing dye stains (washed by mistake with coloured items) and even food stains (such as fruit juice, ketchup and tea) from whites.

## WHITE-WASH 53.2g

N083650

Are you looking for something to revive your dingy whites? Even those whites that are delicate and non-bleachable, like lingerie and silk? Our White-Wash is your solution, a chlorine-free bleach and whitener combined that is specifically formulated to brighten dingy white fabrics, plus remove any yellowing and discoloration. It will even attack stains, like grass, grease and lipstick. Simply use White-Wash with your detergent to bring that fresh off-the-rack pop back to your favorite whites.

All the advantages of our artists canvas in convenient A sizes and economical weight.

Triple primed and suitable for both oil and acrylic paint.

**PRO-ART** WATERCOLOUR STRETCH CANVAS - 3/4" THICK (250GSM)

This pristine, 100% cotton watercolour canvas boasts excellent absorption of water and is the ideal substrate for flawless diffusion effects. It is a great substitute for traditional papers - perfect for a special, frame-worthy piece! Ideal for watercolour painting, equally suitable for other water-soluble media such as gouache, acrylic, tempera, as well as aquarelle pencils or pastels. Acid-free, triple gesso-primed.

The world's most highly pigmented acrylic

## TURNER ACRYL GOUACHE

The world's finest fast-drying, brilliant matte acrylics.

If you love painting, this choice is simple. Turner Acryl Gouache is densely pigmented, free of heavy metals, and dilutable. With its flawless pigment to binder ratio, expect lasting brilliance and minimal colour shift through the drying process, making for an unmatched and intensely rewarding experience. Turner of Japan manufactures the highest quality and most cherished colours used by renowned artists and illustrators from around the world.

## TURNER DESIGN GOUACHE

Matte, opaque water colours for the professional artist & designer.

Widely considered to be the very finest gouache produced in the world today, Turner Design Gouache is for artists seeking a fully opaque watercolour that delivers intensely vivid colours and the most premium matte finish available. Unlike traditional watercolours, Turner's non-bleeding formula lets white and light colours sit cleanly atop dark layers — perfect for bold highlights and crisp detailing. Colours dry to a velvety finish showing no brush marks. Apply with a dry brush to create even smoother, thinner layers and subtle transitions. This range employs the Munsell System to make colour mixing effortless. These colours have been improved over time to be brilliant beyond comparison.

Premium opaque watercolours

## PAINTS & CONSUMABLES

### PRO-ART SPRAY PAINT

A wide range of standard, metallic, fluorescent and pearlescent colours is available in 230ml, and the most popular colours (as well as a protective matt varnish) also come in a larger 400ml can.

Very competitively priced and versatile - can go directly onto polystyrene, foam, canvas, flowers, wood glass, metals, paper and more.

| STANDARD COLOURS    |       |        |

## MASTERCASET EPOXY RESIN

| MASTERCASET 1-2-1 CLEAR ART COATING RESIN |     |
|-------------------------------------------|-----|
| 200ml                                     | F10 |
| 400ml                                     | F11 |

MasterCast Resin is a two-component epoxy resin that produces an optically clear, high gloss finish, and is particularly suited to resin art. It can be used on many surfaces such as canvas, wood, MDF, glass, perspex, concrete & metal.

- Solvent and odour free
- Safe to use - ASTM certified
- High build formula
- Exceptional UV resistance
- Non-flammable

## ARTIST PAINT MEDIUMS, PRIMERS & VARNISHES

### ZELLEN COLD WAX MEDIUM

|       |             |
|-------|-------------|
| 500ml | F11 ZOPA533 |
|-------|-------------|

A translucent, wax-based oil painting medium made from natural waxes, white spirits and alkyd resin. It is used to thicken oil paints and creates a matte transparent appearance. The alkyd resin aids in reducing drying time. It can be mixed with oil paints or powder pigments.

### ZELCOL OIL GLOSS VARNISH

### ZELLEN PAINT BUTTER MEDIUM FOR OIL PAINT

|       |            |
|-------|------------|
| 100ml | F11 ZOPA42 |
|-------|------------|

A translucent, wax-based impasto medium for oil paint. Made from natural waxes, white spirits, alkyd resin and driers. Accelerates drying, thickens soft oil paint and creates a matte finish. Can be applied with a brush or a palette knife. Suggested mixing ratio 1:1.

### ALUMINIUM BRUSH WASHER

This durable brush washer features a basin and spiral wire drying rack that suspends brushes tightly, preventing deformity in the brush tip - great for brushes of all sizes.

|      |         |
|------|---------|
| Code | F11M1AE |
|------|---------|

### WATERBRUSH SETS

Eliminate the need for a water pot with a water brush you can fill with water, liquid watercolors, or inks. Economical and simple to use, a water brush — also known as a water brush pen or watercolor brush pen — features a flexible brush tip that performs like traditional artist paint brushes.

Code F11MA8211

Colour shapers are an alternative to painting knives when working impasto. Use them to build brushstroke-free glaze layers or strokes through paint. Create unusual gestural effects in watercolour and hard-edged calligraphic strokes with ink. Try them for blending, smudging, and dabbing your pastel paintings and charcoal & pencil drawings too.

 **GEL Press PRINTING PLATES**

**Often imitated but never duplicated.**

Gel Press® is where technology meets creativity. Their exclusive formula and fabrication process creates durable and reusable gel plates that allow artists the freedom to reach the height of their imagination. No matter the form their art takes, Gel Press® gel printing plates will empower them to combine different facets of their creative personality into single, beautiful, and thoughtful works of original expression.

**What is Gel Printing?**

Gel printing, also known as gel press or monoprinting with a gel plate, is a form of printmaking that allows artists to produce beautiful, one-of-a-kind prints. This technique involves applying paint to a gel plate, creating textures and patterns, and then pressing paper or fabric onto the plate to transfer the design. It's simple, fun, and perfect for experimenting with different colours and compositions.

**What is a Gel Press?**

A gel press is a reusable printing plate made from a gel-like substance that captures fine details and textures, making it an ideal tool for monoprinting. The flexible nature of the gel press allows for easy manipulation of paints and inks, enabling both novice and expert artists to create stunning artworks with minimal equipment.

PENCIL MAKERS IN THE USA Since 1889  
**GENERAL PENCIL COMPANY, INC.**

**Code** ET557BP

General's® Original Charcoal pencils are handcrafted with an extra smooth, rich, intense black drawing formula, in 3 degrees: 2B, 4B & 6B – this kit also includes one Charcoal White® Pencil and one kneaded eraser. Oil free and blendable, these charcoal pencils are made with the finest organic blacks with a rich warm hue, to create beautiful art renderings and mixed media art. Ideal for drawing class, painting, sketching, still life and portraits.

**Set of 3 (Hard, Medium, Soft)** ET5630ABP

**Hard (Singles)** ET5631T

**Medium (Singles)** ET5632T

**Soft (Singles)** ET5633T

No need to sharpen this black, velvety smooth charcoal pencil, just slowly pull the string, peeling away the paper and revealing more charcoal. Ideal for field sketching. Set includes a kneaded eraser.

**Code** ET5582BP

Made with genuine Incense-Cedar, the Charcoal White® Pencil makes bold, dramatic white marks on black and toned papers! Use to sketch and draw, adjust values, create white areas, or create highlights. Apply patterns on cloth, suede, or dark painting surfaces as a transfer pencil. Brushes off and can be erased easily from papers or fabrics.

**Code** ET960ABP

These extra-large compressed charcoal sticks are rich, smooth and produce lush, velvety blacks. Includes 2B, 4B and 6B sticks.

| General's Pencils                                                                                                                                                                                                                 |                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                              |         |         |                                                                                                                                                                         |                                                                                                                                                          |                                                                                                                                                                                                            |       |

| Kimberly is the premium drawing pencil range from General's. The 9XXB is soft, smooth, and has <b>extra extra black matte graphite</b> . Graded 9B, this wide core pencil is semi-jumbo in size, approximately 8.5mm in diameter. | An extra smooth, soft, black, thick graphite pencil used to create preliminary sketches, to "layout" drawing before painting over, or add intense blacks and dark shading in graphite drawings. Equivalent to Prismacolor's Ebony. | Oil free and blendable, these charcoal pencils are made with the finest organic blacks with a rich warm hue, to create beautiful art renderings and mixed media art. Ideal for drawing class, painting, sketching, still life and portraits. |         |         | Use to sketch and draw, adjust values, create white areas, or create highlights.<br><br>Apply patterns on cloth, suede, or dark painting surfaces as a transfer pencil. | Uses a water-soluble graphite core. Create dramatic washes of grey and black with a wet brush. Use with water colour pencils for shading & unique tones. | Combine the smoothness of graphite & the darkness of charcoal. Lays down smooth, jet-black lines. Run a damp brush over pencil marks to dissolve the top layer, lending itself to beautiful tonal changes. |       |
|                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                              |         |         |                                                                                                                                                                         |                                                                                                                                                          |                                                                                                                                                                                                            |       |

"The Masters"® Brush Cleaner & Preserver removes oils, acrylics, watercolours, stains, and varnishes, and also helps prevent paint build-up in the ferrule. It works beautifully on the finest sable and bristle brushes, and it makes painting with nylon and synthetic brushes a snap. Formulated in conjunction with a cosmetic laboratory to help condition and preserve your brushes with the same care and thought as products that you use on your hair. It keeps your brushes like new so they'll retain the same natural snap and luster - for consistent performance - as the day you bought them. Don't throw away old brushes with dried-on oil paint, no matter how hard the bristles are, "The Masters"® restores old, stiff brushes to like new condition. Simply wet with water, swirl, lather and let brush sit a while before rinsing. Repeat process until all the paint is removed. "The Masters"® keeps your brushes like new.

Specially formulated, "The Masters"® Hand Soap gently cleans and conditions hands, keeping your hands soft and fresh smelling. The B&J® Formula is non-abrasive, yet effectively removes paints, including oil, inks, dyes, grass stains, grease, and grime. Perfect for cleaning up after painting, crafting, gardening, or even working on the car. Just wash with plain water. No need to use harsh chemicals or thinners. This environmentally safe soap is available in 40g and 127g bars.

Kiss-Off® Stain Remover removes stains on the spot. It is unique because it needs just water to remove tough stains, including grease, lipstick, blood, grass stains, wine, coffee and more! No harmful fumes, no liquid to spill, so it is safe to use at home, office, school, traveling, etc. Its convenient size makes it handy to take along anywhere a stain might find you.

# ROMAN SZMAL AQUARIUS ADVANCED WATERCOLOUR ARTISTS' FULL PANS

Roman Szmaj's **Aquarius** is a premium range of artist-quality watercolour pans. Each colour is handmade in small batches using gum arabic, glycerin, linden honey, distilled water and only the purest pigments selected and sourced by Roman Szmaj himself. Every pan is hand-filled and labelled with watercolour paper.

Every batch is tested for key performance qualities: vibrancy, flow, viscosity, colour value, transparency, granulation, undertone, tinting strength, clarity and particle size.

Szmaj prides himself on his exclusive single-pigment hues, formulated from a selection of natural earth pigments and other unique tones which offer artists the cleanest possible mixing experience.

Available in 214 full pan colours in series 1 to 8.

**PLEASE ENQUIRE ABOUT OUR COLOUR RANGE**

## NATURAL SPONGES

Natural sponges are commonly used by artists, home decorators, crafters and potters to create a variety of different techniques that cannot be achieved with synthetic sponges.

**COARSE SPONGES** – medium grade natural sponges with large pores and holes. Ideal for creating wild unpredictable effects with watercolour and acrylics.

**FINE SPONGES** – high grade natural sponges with many small pores. Ideal for consistent powdery effects using watercolour or acrylics.

**ELEPHANT EARS** – Used by pottery professionals and enthusiasts for thousands of years for removing excess clay. (included in the pottery variety pack)

**HONEYCOMB COARSE SPONGES** – Like coarse sponges, they produce wild and unpredictable effects, but are of a higher grade and durability for the true professional.

**VARIETY PACKS** – A must for every artist's cabinet: combination packs of coarse and fine sponges for painting, pottery, and decorating.

They're also used for faux finishing and wall décor/patina. Faux finishing is back! Use these highest grade and most durable natural sponges to give your walls a delicate or vibrant texture using nature's most porous and absorbent material.
